USA Shooting
NATIONAL RECORDS

Updated October 1, 2026.

Purpose

USA Shooting recognizes National Records for each ISSF, IPC, WSPS, special event, and developmental events recognized by USA Shooting.

General Guidelines for National Records

To be recognized as a National Record, the score must be fired in a USA Shooting recognized and sanctioned open, special, or developmental event, or an ISSF, IPC, or WSPS sanctioned competition. The competition must have been conducted on facilities that meet all technical requirements for distances, timing, etc. For Rifle and Pistol events, only scores fired on an electronic target will be considered for National Records for accuracy reasons. The Athlete who fired the Record score must be a U.S. Citizen or Permanent Resident, a current USA Shooting member, and have used only equipment that completely fulfills all requirements for that event as per the ISSF, WSPS, or PPP Rulebook. If equipment control was not conducted at the beginning of the competition, the Competition Director may conduct a special equipment control to certify that the Athlete's equipment fulfilled these conditions. National Records will be recognized if the score is fired in an international competition supervised by the ISSF. The Athlete must have been a member of the USA Shooting sponsored Team for that activity. National Records may not be set in leagues or postal competitions.

Paralympic Athletes must have a valid Paralympic Classification to be eligible to set National Records. If an Athlete does not have an official National or International Paralympic Classification, an unofficial classification by the U.S. National Paralympic Team Coach/Manager or the USA Shooting Competitions Manager is sufficient to meet this requirement.

Individual Records may be set in those events that contain a minimum of 5 competitors for any event (minimum of 2 competitors for Paralympic Events). Any event fired at a reduced distance with reduced-scale targets, must follow all requirements of the official event. (i.e. 50-meter events reduced to 50-feet must follow standards for the 50-meter event.)

Only current ISSF, WSPS, and USA Shooting-recognized events and courses of fire will be recognized for National Records. Recognized age and gender categories are based on currently recognized international and USAS categories. Events and categories that are no longer current will have their Records retired. If the course of fire, scoring parameters, or recognized age categories for an event change, the Record will be retired and a new Record started.

Recognized Age Categories & Definitions

Overall (Open) Records

Any Athlete who meets all requirements to compete in a given event is eligible to set an Overall National Record in any of the competitions outlined in the above guidelines. Junior and Senior category Athletes are also eligible to set Overall Records.

Junior Age Categories

Records will be recognized for Junior Overall (U21), Under 18 (U18), and Under 15 (U15) categories. The definitions of each category are as follows:

- Junior Overall (U21) – Any Athlete whose 21st birthday falls after the start date of the competition in which the Record was set. U18 and U15 Athletes are eligible to set Records in this category.
- Under 18 (U18) – An Athlete whose 18th birthday after the start date of the competition, and whose 15th birthday falls on or before the start date of the competition, in which the Record was set. U15 Athletes are not eligible to set Records in this category.
- Under 15 (U15) – An Athlete whose 15th birthday falls after the start date of the competition in which the Record was set.

Senior Age Categories

Records will be recognized for Senior (S1), Intermediate Senior (S2), and Veteran Senior (Vet) categories. The definitions of each category are as follows:

- Senior Overall (S1) – Any Athlete whose 45th birthday falls on or before the start date of the competition in which the Record was set. S2 and S3 Athletes are eligible to set Records in this category.
- Intermediate Senior (S2) – Any Athlete whose 55th birthday falls on or before the start date of the competition in which the Record was set, and whose 65th birthday falls after the start date of the competition. S3 Athletes are not eligible to set Records in this category.
- Grand Senior (S3) *Formerly Veteran Senior* – An Athlete whose 65th birthday falls on or before the start date of the competition in which the Record was set.

Progressive Position Pistol (PPP) Age Categories
Records will be recognized for Standing Supported (PPP-SS) and Basic Supported (PPP-BS) categories. PPP International Standing categories (PPP-IS and PPP-JS), being identical in format to the ISSF 60-shot Air Pistol course of fire, will not be kept separately. Individuals competing in one of these categories are eligible to set National Records under "Air Pistol – 10 Meter" in their appropriate age category. The definitions of each category are as follows:

- Standing Supported (PPP-SS) – Any Athlete whose 15th birthday falls after the start date of the competition in which the Record was set.
- Standing Supported (PPP-SS) – Any Athlete whose 13th birthday falls after the start date of the competition in which the Record was set.

Applying for a National Record

Coaches and/or Athletes are responsible for notifying USA Shooting of potential new National Records shot in sanctioned events inside or outside the USA. To apply for a National Record, contact the USA Shooting Competitions Manager, Ashley MacAllister, at ashley.macallister@usashooting.org. The Applicant must provide a copy of the official results (all events), and the electronic target detailed record from the competition (Rifle and Pistol events), or officially-signed scoresheet (Shotgun events).
